

CASE STUDY

Unmatched Data Performance to Transcend Compliance Challenges

90+ practitioners

55+ certifications & accreditations

100% Snowflake-first

OPPORTUNITY

A growing **Financial Services** company sought to migrate their data to a new cloud platform with Snowflake. With over 5.2M customers, this migration posed significant challenges, including inefficiencies in interdepartmental communications and concerns over ROI latency. They trusted evolv Consulting to help streamline the migration project, capture opportunities to optimize business operations, and ensure a successful user adoption.

With a comprehensive discovery tailored to each unique department and function, evolv strategized the migration of all various data and reporting by leveraging their:

- **In-depth, end-to-end knowledge** of Snowflake and the surrounding ecosystem
- **Expert and agile** project management methodologies
- **Seamless collaboration** across departments and team member capabilities

RESULTS

Through their partnership with evolv Consulting, the client successfully achieved several transformative outcomes, including:

- **Comprehensive Risk Management Strategy**, enabling centralized, strongly governed data silos that increased data availability, performance of reporting, and innovative data set creation across the organization.
- **Improved Cloud Data Performance**, with a 98% decrease in report load time, easing data usage across departments.
- **CI/CD Efficiency**, a 900% increase in testing and validation by the team, enabling comprehensive regression testing and expanded scenario coverage.

The project's triumph demonstrated immense potential, prompting the client to request dedicated teams for the seamless and prompt delivery of crucial platform components across 19 new product lines and business functions.

Key Business Impacts:

98%

load reduction time

1 example report went from 35 min - 20 secs.

9X

employee productivity

analyst queries up 1200% since month 1.

240

data sources unified

19 BUs with enabled analytics & insights.

By partnering with evolv Consulting, client's unlock Snowflake's full potential and positioned themselves for a future of success in a data-driven world.
